

Feeling like you're falling into the digital divide?

Need a boost?

Questions: skye@communitytechnetwork.org

DigitalLIFT is a capacity-building program developed by Community Tech Network which will provide 10 qualified partner agencies in Caldwell County with the knowledge, training, and support needed to integrate digital literacy programming into their service delivery.

Who can apply?

Non-profits, government agencies, social service providers, health agencies, those looking to provide digital literacy to their communities. 10 agencies will be selected.

What is the commitment?

- One identifiable leader from each agency
- 8-12 hours of train-the-trainer training
- Monthly program check-ins for 6 months
- Expect 2-5 hours weekly of participant's time dedicated to program development & management upon completing the training.

What will be covered:

Funded by St. David's foundation, this program will provide training on needs assessment, data analysis, program development, delivery of broadband, device acquisition, marketing & outreach, volunteer recruitment & management, training, and program evaluation.
